EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dean Fanelli on November 20, 2007.

2. The application has been amended as follows:

In claim 25, line 1 after "The method as claimed in", --claim-- has been inserted.

In claim 47, line 2 after "the amount of newly", "synthesize" has been deleted and --synthesized-- has been inserted therefor.

In claim 47, line 5, after "antibody in response to said", "antigens" has been deleted and --immunogen-- has been inserted therefor.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest lysing lymphocytes obtained from a whole blood sample to determine the presence of newly synthesized antibodies in the blood sample in response to immunogenic response, whereupon the lymphocytes are in acute phase synthesis; hence enabling the detection of on-going synthesis in the lymphocytic cells. Prior art teaches detecting immunoglobulin that is secreted from cells because it was
